RiverWay Connector Segment under construction

2014 OCTOBER

Stream restoration and Stormwater Best Management Practices project begins

2014 EARLY SEPTEMBER TO EARLY NOVEMBER

Craven Street will be closed to complete roadway improvements between Georgia Ave and Waynesville Ave.

2014 JULY 21

Construction begins

2012 JUNE

Council authorized economic development incentive agreement with New Belgium

2012 APRIL

New Belgium Brewing announced their plan to expand by building an east coast brewery at the former WNC Stockyards site on Craven Street in Asheville, NC

What's happening now?

Work on the installation of the stormwater culvert on Craven Street is progressing but has been delayed because of rain and installation of additional foundation. Due to these delays, Craven Street will be closed to through traffic from Georgia Avenue to Waynesville Avenue for an additional 3 weeks through approximately November 5, 2014.

The next phase of the project will involve the closure of Craven Street between Waynesville Avenue and Hazel Mill Road for the work to realign the Craven Street and Hazel Mill Road intersection.

Background

The Craven Street improvement project is located in the area surrounding the New Belgium Brewery construction site and is the City of Asheville's portion in a public-private partnership with The State of North Carolina, NC Golden Leaf Trust Fund, NCDOT, Buncombe County, The Asheville –Buncombe Economic Development Coalition, the NC Economic Development Administration, the Clean Water Management Trust Fund and others in support of New Belgium Brewing's investment of \$175 million in our community.

The project includes the following:

- [Craven Street Multimodal Roadway Improvements](#)
 - Craven Street Waterline Upgrade
- RiverWay Connector Segment (Greenway)
- Low Impact Parking Lot and Stormwater Management Area
- Stream restoration and Stormwater Best Management Practices project
